We are glad to hear on good authority that the motor car on the N. M. C. is paying the cost of operation. It is reasonable to believe that as people come to know better how they can use it to advantage it will do a little better, and will become permanently established. We print in nearly every issue of this paper a time table, so that people may familiarize themselves with the schedule. As far as we are informed the car has been late on but one trip since it started. It runs on time to the dot.

MORIARTY SCHOOL NEWS

Mrs. Wilmot's room entertained at Assembly Wednesday morning with a nice program.

Alvin Sylvester has returned from Texas and is back in school again.

The history classes must be doing good work in current events, judging from the looks of the reading table.

This is the end of our third month. The girls of both junior and senior high have a perfect attendance record. Now, boys, let us see if you can equal their record next month. The new song books are here and we expect to make the auditorium ring with our music.

All the rooms are busy preparing selections for the Christmas program to be given at the school house next Friday afternoon.

Mrs. Wilmot was absent Thursday because of illness. Mr. Gardner took her place.

The primary grade now has an enrollment of thirty-five. Edward Sellers, our athletic manager, was absent several days this week. We hope his eyes will give him no more trouble.

When our teams left for McIntosh last Friday everyone thought it would be an easy victory. By the end of the first half of both boys and girls games we found that we had matched with some real teams. The Moriarty girls were badly behind in the first half but in the last half Elsie Tillery got

The Final Protective Link

The man who would have his last wishes carried out just as he ordered them must look to the final protective link—the appointment of just exactly the right executor or trustee. Trust companies all over the country are performing this function with better, more economical results than individuals. No matter how competent an individual may be, he is still an individual. No matter how great his experience, it is the experience of one person. The people who are appointing the First Savings Bank and Trust Company as the executors of their wills, or the trustees of their estates, assure their families the efficient, economical managing of their affairs, backed by the accumulated experience of a financially responsible organization.

into the game so that she and Hazel Lovett held McIntosh down and gave our forwards a chance, and at the close of the game the score was 8 to 10 in our favor.

The boys game was hardly contested all through, both teams playing good basket ball. The score came up "see-saw" fashion so that the score was 22 to 24 in favor of Moriarty when the game was finished. Mr. Raymond Curry refereed the game and certainly did a good job of it too, holding the boys down so that they played basket ball instead of foot ball. Torrance county needs more good basket ball referees who are not officially connected with either or any school. This would enable them to call personal fouls and make Torrance county's teams faster and better.

Thursday. Geo. Winkler and family are contemplating a move on the mesa, having bought a home there.

Constable John Brittain and Deputy Sheriff Carl Custer were doing business in this section Thursday.

Mr. Brunner and family had business in Estancia Thursday. Mr. Stapp is getting things in readiness to erect a windmill on his place being vacated by Geo. Winkler.

Butchering is a very important item this week. A "greasy old time" is being had.

Mrs. L. L. Rogers, who visited with her sister, Mrs. Walpole two weeks, returned home Friday.

W. N. Walpole and son Oscar had business in Santa Fe Monday.
